

## Disclosure D – IRA Share Accounts

### **Rate Information:**

The dividend rate and annual percentage yield may change at any time, as determined by the credit union board of directors.

**Compounding and crediting** - Dividends will be compounded every day. Dividends will be credited to your account every month. If you close your account before dividends are credited, dividends will be paid at the last declared dividend rate at closing.

**Dividend period** - For this account type, the dividend period is monthly, for example, the beginning date of the first dividend period of the calendar year is January 1, and the ending date of such dividend period is January 31. All other dividend periods follow this same pattern of dates. The dividend declaration date is the last day of the dividend period, and for the example above is January 31.

### **Minimum balance requirements:**

The minimum required to open this account is the purchase of a share in the credit union. Please see the bylaw requirements in the Common Features section for additional information. You must maintain a minimum daily balance of \$5.00 in your account each day to obtain the disclosed annual percentage yield.

**Daily balance computation method** - Dividends are calculated by the daily balance method which applies a daily periodic rate to the balance in the account each day.

**Accrual of dividends on noncash deposits** - Dividends will begin to accrue on the business day you place noncash items (for example, checks) to your account.

### **Transaction limitations:**

You may not make any withdrawals or transfers to another credit union account of yours or to a third party by means of a preauthorized or automatic transfer, telephonic order or instruction, or similar order to a third party.

### **Par value of a share:**

The par value of a share in this account is \$5.00.
